

# ***RIGHT ON LIBRARY AUTOMATION SOFTWARE***

For more than 30 years, Producers of **THE AFFORDABLE ALTERNATIVE®** in automation software for the library community including churches, synagogues, schools and offices.

## ***CIRCULATION DESK SYSTEM***

A complete circulation program at an affordable price.

This best selling, software program is actually four programs in one:

1. CIRCULATION MANAGEMENT
2. PATRON ACCESS CATALOG
3. OVERDUE BOOKS MANAGER
4. LABEL SET PRINTER (Integrated Catalog Card maker version also available.)

The easiest and best way to check materials in and out, PLUS...Prints a complete book catalog in several formats and prints labels and overdue notices. So affordable, so easy to learn and use and allows you to make so much better use of your time. You do not need to be a cataloger or even a typist. You simply type the information into the blank spaces provided. Making corrections and fixing mistakes is done at the touch of a key. Easy search function allows instant tracking of all materials on hand or on loan. Supports patron reserves for current or future dates. Automates and simplifies repetitive library tasks. May also be used as an acquisition program.

Enjoy flexible operation for use in the *Windows '98, 2000, XP, XP PRO, VISTA, Windows 7 Professional, Windows 7 Ultimate or NT* environment. Both single user and network versions are available, with the network version price allowing an **unlimited number of users** for one low price
